

WELLNESS IN A BOX

Company wellness comes with a number of benefits for both the employee and the employer. Our Wellness in a Box program is an affordable and effective tool that will motivate your team to stay active and live healthier lifestyles.

MANAGEMENT MADE EASY

Log in to the administrator dashboard to manage your organization. View charts to see how your program is doing.

MOTIVATE THROUGH COMPETITION

Get your team on their feet with friendly walking competitions. Teams can face off and see which individuals are leading the pack.

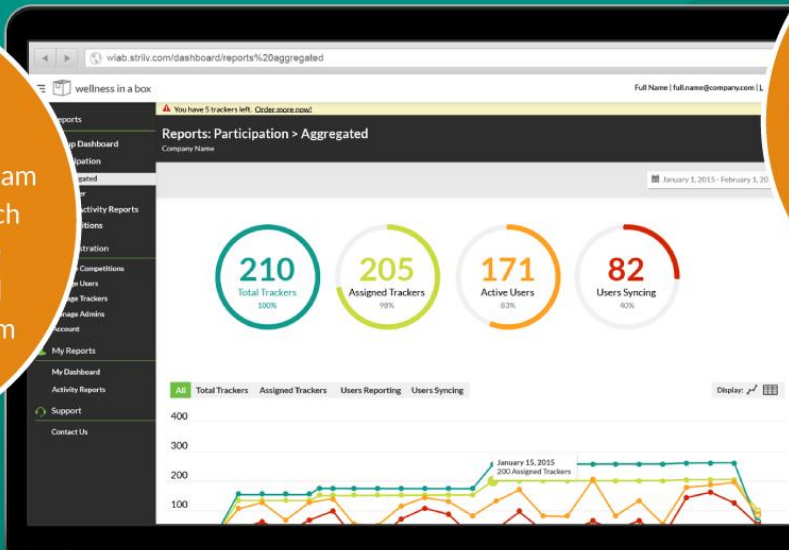

GET STARTED IN MINUTES

Our easy sign up process gets your team members onboard quickly. Once they join, they're automatically part of your organization, and you know who's signed up.

FREE TRACKERS

That's right. Each of your team member gets a smartwatch activity tracker with the program at no additional cost. Oh yeah, the program costs less, too.

NO SMARTPHONE REQUIRED

Not everyone has a smartphone, but that's no problem! As long as users have a PC with a USB port, they can still be a part of the fun.
